

REMARKS

Claims 3, 5-8, 10-13, and 37-38, as amended, remain herein. New claim 38 has been added. Support for the new claim may be found, for instance, at page 26, lines 21-24 of applicants' specification.

Independent claim 37 is patentable over Sakai et al. U.S. Patent Application Publication 2002/0136922 with evidence from Hosokawa et al. U.S. Patent 7,087,322, for the reasons discussed in the Amendment filed December 16, 2010. Claim 38 is further patentable over Sakai because Sakai nowhere suggests the use of a first dopant and a second dopant at 10 wt% of the light-emitting layer or less.

Accordingly, all claims are now fully in condition for allowance and a notice to that effect is respectfully requested. The PTO is hereby authorized to charge/credit any fee deficiencies or overpayments to Deposit Account No. 19-4293. If further amendments would place this application in even better condition for issue, the Examiner is invited to call applicant's undersigned attorney at the number listed below.

Respectfully submitted,

STEPTOE & JOHNSON LLP
